## PROJECT SEARCH LVH-SCHUYLKILL

---

## HAPPY HOLIDAYS FROM THE PROJECT SEARCH INTERNS & STEERING COMMITTEE

We wish to *thank LVH-Schuylkill* for the continued support of Project SEARCH and the interns. The real-life work experience combined with training in employability and independent-living skills are helping the interns make successful transitions to productive adult life.

Project SEARCH currently has 714 sites in 48 US states and 10 countries. LVH-Schuylkill is the first and only site in Schuylkill County. Interns are in departments learning as many skills as possible during each rotation with additional skills added as more basic skills are mastered.

# PROJECT SEARCH NEWSLETTER

---

## ALEXIS

Alexis completed her first rotation in the Supply & Distribution Department. Her manager was Bucky and her mentors were Regina and Sherry. She worked hard to fill orders with accuracy and deliver to the correct department. She was very proud to learn first aid and safety protocols. "My best experience in Project SEARCH is working with new people, working on my own sometimes, and working around the hospital." She just started her second rotation in Patient Transport.

## CLARE

Clare completed her first rotation in Patient Transport. Her manager was Amy and her mentor was Gabby. She learned how to identify patients and get them safely to the correct location. She learned who to read oxygen tanks and medical language/terms. She was proud to learn correct body mechanics and lifting procedures to move beds and wheelchairs. She just started her second rotation in Dietary.

## ANNA

Anna completed her first rotation in Guest Services. Her manager was Pati and her mentor was Mary. She was proud that she learned how to greet people and was able to show them how to get around the hospital. She was also happy to learn where mail is located. She worked hard to sanitize wheelchairs and other "high-touch" surfaces. She just started her second rotation as a tech aide in the Radiology Department.
